Thank You!

to Matt Thomas and
Raymond Vince
for running our
Senior Olympic tennis
tournament this year!

Matt Thomas is a serious player and athlete. He decided one day to switch from golf to tennis.

Why? Because, he says, "Tennis takes less time and requires more exercise." "And," he added, "I want to improve the quality of my tennis each year," and he has been "improving for five years."

The Council on Aging works with district games and the Tournament play takes five days and includes doubles, singles and mixed doubles. As one might expect players become devoted to the game and compete with one another through the years. Mr. Thomas mentioned that both men and women in their 80's come out to compete!
